

**April 15, 2008**

Fellow homeowners,

We had a treatment of ROTban done on our home in **March of 2003**. We were pleased with the decision. ROTban prolonged the life of our existing roof for an even longer period of time than we originally thought. It's now **5 years later**, and we have had some maintenance on the roof by the same company. We recommend the use of the **ROTban** product for any one who is looking to extend the life of their cedar roof.

Yours truly,

Wendy & Dave Coulson  
Boundary Park,  
Surrey, BC Canada
