To Whom it May Concern,

On June 26, 2002, I had my roof sprayed with ROTban. At the time, I was still a little skeptical, because you hear a lot of false claims. However, ROTban did the job just as it was described to me.

I saw a great improvement in the roof, and now it is 5 years later and I want to have the process repeated. It's just like they claimed.

I paid \$995.10 for the [whole service with a 3 year guarantee](#), so that's just \$199 a year for good looks and preservation.

I would recommend for any roof owner to seriously consider this product.
